

CIL'S POLICY FOR CORPORATE SOCIAL RESPONSIBILITY (CSR)

I. PREAMBLE

The concept of Corporate Social Responsibility has gained prominence from all avenues. Organizations have realized that Govt. alone will not be able to get success in its endeavor to uplift the downtrodden of Society. With the rapidly changing corporate environment, more functional autonomy, operational freedom etc. Coal India has adopted CSR as a strategic tool for sustainable growth. For Coal India in the present context, CSR means not only investment of funds for Social Activity but also Integration of Business processes with Social processes.

Even much before the issue of CSR became global concern, Coal India was aware of its Corporate Social Responsibility and was fulfilling the aspiration of the Society through well-defined "Community Development Policy" within the periphery of 8 Kms. of the Project sites. This has resulted into a harmonious relationship between Coal India and the peripheral Communities.

II. Introduction:

The Mines of Coal India and its subsidiaries are located in different parts of the country spread in 8 States, and relatively in isolated areas with little contact to the outside society. Mining of coal has profound impact on the people living in and around the areas where the mines are established. The obvious impact of the introduction of any production activity in such areas change the traditional lifestyle of the original inhabitants and indigenous communities and also change the socio-economic profile of the Area. Hence, the primary beneficiaries of CSR should be land oustees, PAP and those staying within the radius of 25 Kms of the Project. Poor and needy section of the society living in different parts of India should be second beneficiaries.
