E. PurchasePreferenceunder'MakeinIndia'Policyfor"Localsupplier".

Preference to Make in India (as applicable) vide Order No. P-45021/2/2017-PP(BE-II) dated 16.09.2020, issued by Govt. of India as amended from time to time shall be applicable. In terms of the above said policy, purchase preference shall be given to Class-I local supplier. In terms with the above said policy, Class-I local suppliers and Class-II local suppliers shall be eligible to bid.

The definitions of Class-I Local Supplier, Class-II local supplier, Non-Local supplier, Local Content and Margin of Purchase Preference as per above mentioned Order are as follows: -

- A. 'Class-I local supplier' means a supplier or service provider, whose goods, services or works offered for procurement, has local content equal to or more than 50%, as defined under said order.
- B. 'Class-II local supplier' means a supplier or service provider, whose goods, services or works offered for procurement, has local content equal to or more than 20% but less than 50%, as defined under said order.
- C. 'Non-Local supplier' means a supplier or service provider, whose goods, servicesor works offered for procurement, has local content less than 20% as defined under said order
- D. 'Local Content' means the amount of value added in India which shall be the total value of the itemprocured (excluding netdomestic indirect taxes) minusthevalue of imported content in the item (including all customs duties) as a proportion of the total value, in percent.
- E. 'Margin of Purchase Preference' means the maximum extent to which the price quoted by a Class-I local supplier may be above the L1 for the purpose of purchase preference. The margin of purchase preference is 20%.
- In terms of the above said policy, purchase preference shall be given to local suppliers in the following manner:
- I. In the procurement of works which are divisible in nature, the following procedure shall be followed: -
 - Among all qualified bids, the lowest bid will be termed as L-1. If L-1 is from a Class-I local supplier, the contract for full quantity will be awarded to L-1 at L-1 price by the Purchaser.
- ii) If L-1 is not a Class-I local supplier,50% of the order quantity shall be awarded to L-1. Thereafter, the lowest Bidder among the Class-I local suppliers will be invited to match the L-1 price for the remaining 50% quantity subject to Class-I local supplier's quoted price falling within the margin of purchase preference, and the contract for that quantity shall be awarded to such local supplier subject to his matching the L-1 price.IncasesuchlowesteligibleClass-IsupplierfailstomatchtheL-1priceor

accept less than the offer quantity, the next higher Class-I local supplier within the margin of purchase preference shall be invited to match the L-1 price for remaining quantityandsoon,andcontractshallbeawarded accordingly.Incasesomequantity isstillleftuncoveredonClass-Ilocalsupplier,thensuchbalancequantitymayalsobe ordered on L-1 Bidder.

- II. In the procurement of works which are not divisible, and in procurement of services where the bid isevaluated onprice alone, the following procedure shall be followed:
 - i) Among all qualified bids, the lowest bid will be termed as L-1. If L-1 is from a Class-I local supplier, the contract will be awarded to L-1.
 - ii) If L-1 is not from a Class-I local supplier, the lowest Bidder among the Class-I local suppliers, will be invited to match the L-1 price subject to Class-I local supplier's quoted price falling within the margin of purchase preference, and the contract shall be awarded to such Class-I local supplier subject to matching the L-1 price.
 - iii) In case such lowest eligible Class-I local supplier fails to match the L-1 price, the Class-I local supplier with the next higher bid within the margin of purchase preference shall be invited to match the L-1 price and so on and contract shall be awarded accordingly. In case none of the Class-I local suppliers within the margin of purchase preference matches the L-1 price, then the contract may be awarded to the L-1 Bidder.

III. Applicabilityintenderswherecontractistobeawardedtomultiple bidders

In tenders where contract is awarded to multiple bidders subject to matching of L1 rates or otherwise, the 'Class-I local supplier' shall get purchase preference over 'Class-II local supplier' as well as 'Non-local supplier', as per following procedure:

- a) Incasethereissufficientlocalcapacityandcompetitionfortheitemtobeprocured, as notified by the nodal Ministry, only Class I local suppliers shall be eligible to bid. As such, the multiple suppliers, who would be awarded the contract, should be all and only 'Class I Local suppliers'.
- b) In other cases, 'Class II local suppliers' and 'Non local suppliers' may also participate in the bidding process along with 'Class I Local suppliers' as per provisions of the Order.
- c) If 'Class ILocal suppliers' qualifyfor award of contract for at least50 (fifty) percent of the tendered quantity in any tender, the contract may be awarded to all thequalified bidders as per award criteria stipulated in the bid documents. However, in case 'Class I Local suppliers' do not qualify for award of contract for at least 50 (fifty) percent of the tendered quantity, purchase preference should be given tothe 'ClassI local supplier' over 'Class II local suppliers'/ 'Non local suppliers' provided that their quoted rate falls within margin of purchase preference of the L1 bidder considered for award of contract so asto ensure that the 'ClassILocal suppliers' taken in totality are considered for award of contract for at least 50 (fifty) percent of the tendered quantity.
- d) First purchase preference has to be given to the lowest quoting 'Class-I local supplier', whose quotedrates fall within margin of purchase preference, subject to

its meeting the prescribed criteria for award of contract as also the constraint of maximum quantity that can be sourced from any single supplier. If the lowestquoting 'Class-I local supplier', does not qualify for purchase preference because of aforesaid constraintsordoesnot accepttheofferedquantity, an opportunity maybe given to next higher 'Class-I local supplier', falling within margin of purchase preference, and so on.

- e) To avoid any ambiguity during bid evaluation process, the procuring entities may stipulate its own tender specific criteria for award of contract amongst different bidders including the procedure for purchase preference to 'Class-I local supplier' within the broad policy guidelines stipulated in sub-paras above.
- IV. **Requirement for specification in advance:** The minimum local content, the marginof purchase preference and the procedure for preference to Make in India shall be specified in the notice inviting tenders or other form of procurement solicitation and shall not be varied during a particular procurement transaction.

V. Verificationoflocal content:

- a) If the estimated value of Procurement is less than Rs. 10 crores, all the Bidders at the time of bidding shall submit self-certification indicating the percentage of local content in the offered items. They shall also give details of the location(s) at which the local value addition is made, if applicable.
- b) In cases of procurement for a value in excess of Rs. 10 crores, the 'Class-I local supplier'/ 'Class-II local supplier' shall be required to provide a certificate with UDIN from the statutory auditor or cost auditor of the company (in the case of companies) or from a practicing cost accountant or practicing chartered accountant (in respect of suppliers other than companies) giving the percentageof local content.
- c) Decisions on complaints relating to implementation of this Order, 2020 (amended from time to time) shall be taken by TAA limited to the CMD of CIL/Subsidiaries to the procuring entity.
- d) CIL/Subsidiary may constitute committees with internal and external experts for independent verification of self-declarations and auditor's/ accountant's certificates on random basis and in the case of complaints.
- e) False declarations will be debarring of the bidder or its successors for a period up to two years as per Guidelines on debarment of firms from bidding along with such other action as may be permissible under law.
- f) A supplier who has been debarred by any procuring entity for violation of the Order shallnot be eligible for preferenceunder the Orderfor procurement by any other procuringentityfor the duration of the debarment. The debarment for such other procuring entities shall take effect prospectively from the date on which it comes to the notice of other procurement entities, in the manner prescribed below.
- g) The Department of Expenditure shall issue suitable instructions for the effective and smooth operation of this process, so that:

- 1. The fact and duration of debarment for violation of the Order by any procuringentityarepromptlybroughtto thenotice ofthe Member-Convenor of the Standing Committee and the Department of Expenditure through the concerned Ministry / Department or in some other manner;
- 2. on a periodical basis such cases are consolidated and a centralized list or decentralized lists of such suppliers with the period of debarment is maintained and displayed on website(s);
- 3. In respect of procuring entities other than the one which has carried out the debarment, the debarment takes effect prospectively from the date of uploadingon the website(s) in the such a manner that ongoing procurements are not disrupted.

VI. Reciprocity Clause

- 1. When a Nodal Ministry/Department identifies that Indian suppliers of an item are not allowed to participate and/ or compete in procurement by any foreign government, due to restrictive tender conditions which have direct or indirect effect of barring Indian companies such as registration in the procuring country, execution of projects of specific value in the procuring country etc., it shall provide such details to all its procuring entities includingCMDs/CEOs of PSEs/PSUs, State Governments and other procurement agencies under their administrative control and GEM for appropriate reciprocal action.
- 2. Entities of countries which have been identified by the nodal ministry/departments not allowing Indian companies to participate in their Government procurement for any item related to that nodal Ministry shall notbe allowed to participatein Governmentprocurement in India (including CIL and its Subsidiaries) for all items related to that nodal Ministry/ Department, except for the list of items published by the Ministry/ Department permitting their participation.
- 3. The term 'entity' of a country shall have the same meaning as under the FDI Policy of DPIIT as amended from time to time.

VII. Manufacture under license/ technology collaboration agreements with phased indigenization

- a) While notifying the minimum local content, Nodal Ministries may make special provisions for exempting suppliers from meeting the stipulated local content if the product is being manufactured in India under a license from a foreign manufacturer who holds intellectual property rights and where there is a technology collaboration agreement / transfer of technology agreement for indigenous manufacture of a product developed abroad with clear phasing of increase in local content.
- b) Inprocurementofallgoods, services or works in respect of which there is substantial quantity of public procurement and for which the nodal ministry has not notified that there is sufficient local capacity and local competition, the concerned nodal ministry shall notify an upper threshold value of procurement beyond which foreign companies shall enter into a joint venture with an Indian company to participate in the tender. CIL/Subsidiary while procuring such items beyond the notified threshold

value, shall prescribe in their respective tenders that foreign companies may enter into a joint venture with an Indian company to participate in the tender. CIL/Subsidiary shall also make special provisions for exempting such joint ventures from meeting the stipulated minimum local content requirement, which shall be increased in a phased manner.

- c. Letter of Bid (LoB): The format of Letter of Bid is given at Annexure I of Tender document. This will be the covering letter of the bidder for his submitted bid. The bidder shave to accept unconditionally the Letter of Bid in GTE (General Technical Evaluation) at the time of bid submission. No recycling will be done for this document i.e. no further clarification will be sought from bidder.
- d. **Price bid:** The Price bid containing the Bill of Quantity will be in Excel format and will be downloaded by the bidder and bidder will quote the rates for all items on this Excel file. Prior to quoting the rates in the BOQ file, the bidder will select the appropriate status from the following drop down list given in the BOQ:-
 - I. Status:GSTRegisteredBidderunderregularscheme
 - II. Status:GSTRegisteredBidderundercompositionscheme
 - III. Status:GSTunregisteredbidder

The rates quoted by the bidder will be excluding GST and GST component (to be paid by CIL / Subsidiary and/or the bidder) will appear as a separate entity. The component of GST will be taken by the system based on the status of bidder selected by the bidder during bid submission and with the pre-defined business logic given in the BOQ file by the department. This file will be digitally signed and uploaded by the bidder after ascertaining the correctness of facts and figures.

Thereafter, the bidder will upload the same Excel file during bid submission in cover-II. The Price-bid (excluding GST) will be in Item Rate or Percentage Rate or Mixed Rate[combination of Item Rate and Percentage Rate] BOQ format and the bidder will have to quote for all the tendered items. The Price Bid of the tenderers will have no condition. The price bid which is incomplete and not submitted as per instruction given in this document is liable for rejection.

SystemfordecisionofL1bidder

The L1 bidder will be decided based on Overall Quoted Value (i.e. cost to the Company). The system for decision of L1 bidder will be as per following 02(two) cases:-

<u>Case – 1</u>:Supply for which INPUT TAX CREDIT (ITC) is not available to the Company. For calculation of Overall Bid Value, the GST [CGST, SGST/UTGST, IGST and GST (compensation to state tax)] to be paid by the bidder **or** by CIL/ Subsidiary taken by the system will be added to decide the L1 i.e the ranking of the Bidders will be decided based on rates quoted by the bidders plus GST. This value of the bidder will be "the Cost to Company".

Then share of GST to be deposited by CIL/ Subsidiary, if any will be deducted from overall bid value to arrive at the Contract value. The Price-bids of the tenderers shall have no condition. The Price Bid which is incomplete and not submitted as per instruction given above is liable for rejection.

Case - 2:Supply for which INPUT TAX CREDIT (ITC) is available to the

In termsoftheabove said policy, purchase preference shall be given to local suppliers in the following manner:

- In the procurement of works which are divisible in nature, the following procedure shall be followed:
 - i) Among all qualified bids, the lowest bid will be termed as L-1. If L-1 is from a Class-I local supplier, the contract for full quantity will be awarded to L-1 at L-1 price by the Purchaser.
 - ii) IfL-1isnot aClass-Ilocalsupplier,50%oftheorderquantityshallbeawarded to L-1. Thereafter, the lowest bidder among the Class-I local suppliers will be invitedtomatchtheL-1pricefortheremaining50%quantitysubjecttoClass-I local supplier's quoted price falling within the margin of purchase preference, and the contract for that quantity shall be awarded to such local supplier subject to his matching the L-1 price. In case such lowest eligible Class-I supplier fails to match the L-1 price or accept less than the offer quantity, the next higher Class-I local supplier within the margin of purchase preference shall be invited to match the L-1 price for remaining quantity and soon,and contract shallbe awardedaccordingly.Incase somequantityisstill left uncovered on Class-I local supplier, then such balance quantity may also be ordered on L-1 bidder.
- II. Intheprocurementofworkswhicharenotdivisible, and in procurement of services wher ethebidis evaluated on priceal one, the following procedures hall be followed:
 - i) Among all qualified bids, the lowest bid will be termed as L-1. If L-1 is from a Class-I local supplier, the contract will be awarded to L-1.
 - ii) If L-1 is not from a Class-I local supplier, the lowest bidder among the Class-I local suppliers, will be invited to match the L-1 price subject to Class-I local supplier's quoted price falling within the margin of purchase preference, and the contract shall be awarded to such Class-I local supplier subject to matching the L-1 price.
 - iii) In case such lowest eligible Class-I local supplier fails to match the L-1 price, the Class-I local supplier with the next higher bid within the margin of purchase preference shall be invited to match the L-1 price and so on and contract shall be awarded accordingly. In case none of the Class-I local suppliers within the margin of purchase preference matches the L-1 price, then the contract may be awarded to the L-1 bidder.

Note: The confirmation from the bidder regarding matching of L1 price may be taken in confirmatory document link of e-Procurement portal by recycling 'Any other document' link.

Verification of local content:

- I. If the estimated value of Procurement is less than Rs. 10 crores, all the Bidders at the time of bidding shall submit either self-certification indicating the percentage of local content in the offered items in Undertaking as per format at **Annexure-III.** They shall also give details of the location(s) at which the local value addition is made, if applicable.

Note:

- i). In case of above, a letter will be issued to the bidder by Tender Inviting Authority with the approval of Tender Accepting Authority (in case Board is Tender Accepting AuthoritythenwiththeapprovalofCMD), statingthattheEMDof bidderisforfeited, and this bidder is debarred for minimum 1 (one) year from participating in tenders in CIL/Subsidiary. This letter will be circulated to all Areas and CIL/Subsidiary HQ and the updated list will be maintained by all Tender Inviting Authority/Evaluators.
- ii). Penal action against clause (a) & (b) above will be enforced from the date of issue of such order. The standard operating procedure to handle withdrawal of bid after end date of submission shall be as per Clause no 29 (Standard Operating Procedure for Withdrawal of Bid) of NIT.

29. StandardOperatingProcedureforWithdrawalofBid:

I. The Mode of withdrawal:-

A. OnlineWithdrawalofBids:

- a. The system of online withdrawal is available on the portal up to end date of bidsubmission, where any bidder can withdraw his/her bid which will attract no penal action from department side.
- b. The system of online with drawal beyond end date of bid submission and till award of contract is also available but not fully functional and under development stage. Once it is developed and implemented only online with drawal shall be considered except for some exceptional cases as mentioned in clause below.

B. OfflineWithdrawalofBids:

- a. A partner of bidder (in case of JV and partnership firms) whose DSC is registered on the e-Procurement portal can access the portal for online withdrawal but when there is a split in the business relationship, the partners whose DSC is not registered on the portal do not have theoption of online withdrawal of bid. Hence such partners may opt to use offline method of withdrawal of his/her offer (or express his disassociation from the bidder organization).
- b. Tilla fully functional system of online withdrawal of bid (beyond end date of bid submission and till award of contract) is not developed and implemented, offline withdrawal shall also be considered.

II. AcceptanceofwithdrawalbyTender Committee:

- B. TheTenderCommitteeshallapplyitsduediligencetodecide:
 - a. Whether the request for withdrawal of offer has been received from right source and authentic. For this purpose a letter is to be sent by registered post/speed post to the bidder on the address as given by him in the enrollment page of e-Procurement portal, allowing 10 days' time to confirm the withdrawal. If the bidder does not confirm the withdrawal within the stipulated period then it should be construed that there is no withdrawal of bid. In case the withdrawal/disassociation from the firm (Joint Venture or Partnership firm) has been submitted by any other partner then also the confirmation has to be sought from the bidder and if bidder wants to deny the withdrawal/disassociation from the JV or the partnership firm then the bidder shall be required to furnish a legally acceptable document signed by all the partners of the firm to substantiate his claim.
 - b. Whether the withdrawal is due to the reason other than to support anymala fide intention of any participating bidder such as participating or supporting a cartel formation etc.
 - c. If the mala fide intentions in the withdrawal are apprehended then the tender should be cancelled apart from other penal action as per e-Procurement Manual for works and services of CIL and other guidelines/manuals of CIL.
 - d. If no mala fide intentions in the withdrawal are apprehended then the penal action in line with the prescriptions of the e-Procurement Manual for works and services of CIL will be applicable.
 - e. The Tender Committee may also obtain the opinion of legal department in order to ascertain the legal course of action in case of Clause II-(B)(b) and II-(B)(c) above.

Additionally, the company shall debar such defaulting contractor from participating in futuretendersin concerned Subsidiary/CILHQfor a period of minimum one year from the date of issue of such letter.

In case of JV/Partnership firm, the debarment shall also be applicable to all individual partners of JV/Partnership firm.

"Note(Notpartoftenderdocument):-

In the above case, debarment shall be done as per Guidelines on Debarment of firms from Bidding.

TheBidSecurity/EMDdepositedwiththeEmployerwillnotcarryany interest.

No claim from the bidders will be entertained for non-receipt of the refund in any account other than the one from where the money is received.

If the refund of EMD is not received by the bidder in the account from which the EMD has been made due to any technical reason, then it will be paid through conventional system of e-payment. For this purpose, bidder should submit E-Mandate form in format provided by company.

In case the tender is cancelled then EMD of all the participating bidders will berefunded unless it is forfeited by the department.

If the bidder withdraws his/her bid online (i.e. before the end date of submission of tender) then his/her EMD will be refunded automatically after the opening of tender.

16. SIGNINGOFBID

The contractors bid will be digitally signed by DSC holder submitting bid online andit does not require any physical signature. However, if the Contractor's bid bears the physical signature in addition to the digital signature of DSC holder, it will be accepted without questioning the identity of person singing the bid.

If the bidder himself is the DSC holder bidding on-line then no document is required. However, if the DSC holder is bidding online on behalf of the bidder then the Power of Attorney or any sort of legally acceptable document for the authority to bid on behalf of the bidder is required.

24. EXAMINATIONOFBIDSANDDETERMINATIONOFRESPONSIVENESS

PriortothedetailedevaluationofBids,theEmployerwilldeterminewhether each Bid:

- a. meetstheeligibilitycriteriadefinedinClause3;
- b. hasbeenproperly signed;
- c. isaccompanied by the required Bidsecurity/EMDExemption Document (if applicable).
- d. issubstantiallyresponsive to the requirements of the Bidding documents.

A substantially responsive Bid is one which conforms to all the terms, conditions, and specifications of the Bidding documents without material deviation or reservation is one :

- a. which affects in any substantial way the scope, quality, or performance of the works:
- b. which limits in any substantial way, inconsistent with the Bidding documents, the Employer's rights or the Bidder's obligations under the Contract; or
- c. whose rectification would affect unfairly the competitive position of other Bidders presenting substantially responsive Bids.

If a Bid is not substantially responsive, it may be rejected by the Employer at its sole discretion.

25. Deleted

26. EVALUATIONANDCOMPARISONOFBIDS.

The Employer will evaluate and compare only the Bids determined to be substantially responsive in accordance with Clause 24.Price bid of the bidder will haveno condition.

The price bid which is incomplete and not submitted as per instruction given in the bid document will be rejected.

The evaluation of Bid, by the Employer shall be done as per Bid Prices as submitted by the Bidder in online Mode and subsequently downloaded from the e-procurement portal of CIL.

The Employer reserves the right to accept or reject any Bid not conforming to the requirements of the Bidding documents.

No document presented by the bidder, after closing date and time of bid, will be taken into account by the evaluation committee unless otherwise called for during scrutiny / technical scrutiny by the tender committee as clarification. This however, will have no bearing with the price quoted in the price bid. If a bidder offers a rebate unilaterally after the end date and time of the bid submission, it will not be taken into account for evaluation purpose by the tender committee. But if that bidder emerges as the lowest evaluated, the rebate offer will be taken into account for determination of the total offer.

Bid evaluation shall be done after taking into consideration overall quoted price by the bidder and effect of Goods and Services tax (GST), GST Compensation Cess etc. as applicable. L1 will be decided based on cost to the company.

If the Bid of the successful L-1 bidder is seriously unbalanced in relation to the Company's estimate of the cost of work to be performed under the contract, the Employer may require the Bidder to produce detailed price analysis for any or all items ofthe Billof Quantities, to demonstrate the internal consistency of those prices with the methods and schedule proposed.

After evaluation of the price analysis, the company may require that the amount of the performancesecurity/securitydepositisincreasedattheexpenseofthesuccessful bidder to a level sufficient to protect the company against financial loss in the event of default on the part of the successful bidder under the contract.

Additional performance security shall be applicable if the bid price is below 15% of the justified price, finalized by the owner. The amount of such additional performance security shall be the difference between 85% of the owner's justified price and quoted price.

Justified price shall be finalized by the owner on the basis of prevalent market rate of materials and labour analyzed as per standard analysis of rate of CPWD/ NBO, and shall be binding on the bidder.

Such additional performance security shall be applicable for Item-rate and Percentage Tenders.

Such additional performance security shall be furnished by bidder along with normal performance security as per Cl. No. 4 of GTC. Additionally, the company shall ban such defaulting contractor from participating in future tenders in concerned Subsidiary/CIL HQ for a period of minimum one year from the date of issue of such letter.

In case of JV/Partnership firm, the banning shall also be applicable to all individual partners of JV/Partnership firm.

In addition, all types of manufacturers guarantee/warranty wherever applicable are to be issued/revalidated in the name of the owner by the contractual agency and will be covered with relevant counter guarantee.

Bank guarantees furnished against Performance Security and Retention Money shall be validated for a period 90 days beyond the guarantee period.

5. Deviations/VariationsinQuantitiesandPricing.

The quantities given in the "Schedule of Quantities" are based on estimates and are meant to indicate the extent of the work and to provide a uniform basis for tendering and any variation either by addition or omission shall not vitiate the contract.

The variation register may be maintained in SAP in electronic form to have a proper control over variations.

The company through its Engineer-in-Charge or his representative shall, without radicallychangingtheoriginalscopeandnatureofthework,undercontract,havepower to make any alterations in or additions to or substitution of the original specifications, drawings, designs and instructions that may appear to be necessary or advisable during the progress of the work.

The contractor shall be bound to carry out the work(s) in accordance with the instructions given to him in writing by the Engineer-in-Charge or his representative on behalf of the company. Such altered or additional or substituted work, which shall form part of the original contract, shall be carried out by the contractor on the same terms and conditions in all respects on which they agreed to do the main work and at the same rate/rates as are specified in the contract/ work-order. In case there are changes in ground levels from those shown in the approved drawings, they shall be agreed in writing, jointly by the contractor and EIC.

The right is reserved to cancel any items of work included in the contract agreement or portion thereof in any stage of execution if found necessary to the work and such omission shall not be a waiver of any condition of the contract nor invalidate any of the provisions thereof.

If the additional, altered or substituted work includes any class of work for which rate/rates is/are not specified in the contract/work order, rates for such items shall be determined by the Engineer-in-Charge as follows:

a) Inthe case of percentage tenders, if the rate for the extra item of work executed is available in the company's approved SOR, it will be paid at the schedule rate plus or minus the accepted percentage as per contract.

However, if the extra item is not available in company's approved SOR, then the rate for such extra item(s) shall be dealt as at (c) below.

b) In case of item rate tenders, the rate for extra item shall be derived from therate for similar item or near similar item / class of work available in the agreement schedule of work or by analysis of rates as at below and the lower rate out of the above two shall be considered.

In case of composite item rate tenders, where two or more schedule of quantities for similar itemdescription mayform partofthecontract, the applicable rates shall be taken from the Schedule of Quantities of that particular part in which the deviation is involved, failing that at the lowest applicable rate for the similar itemof work in the other schedule of quantities.

For derivation of rates based on analysis, the same shall be done by analysis on prevalent market rate of materials and labour based on standard norms of analysis of rate of C.P.W.D/ N.B.O.

- c) In the case of extra item(s) that are completely new, and are in addition to the items contained in the contract, the contractor may within 15 days of receipt of order or occurrence of the item(s) claim rates, supported by proper analysis. The Engineer-in-Charge shall determine the rate(s) by analysis based on prevalent market rate of material and labour and on standard norms of analysis of rate of CPWD / NBO.
- d) In case of combined tender with partly item rate for non-schedule items & partly percentagetendersforSORitems, therateforextraitems hall be derived as at (b) & (c) above in case of non-schedule items rates and in case of percentage rates for SOR items the rate for extra item shall be derived as at (a) above.

In case of any difference between the contractor and the Engineer-In Charge as to the fixation of rates, the matter shall be referred to the accepting authority of the company i.e. GM(C) of the company or Staff Officer(C) for the work awarded at Company Hqrs. level and Area level respectively, whose decision shall be final and binding on the contractor.

Alteration in the quantities shall not be considered as a change in the condition of the contract nor invalidate any of the provision thereof provided that a deviation estimate / revised estimate / supplementary agreement for the item(s) involved ismade. Such approval shall be from appropriate authority.

Payment for such deviated items [additional/ altered / substituted items of work of the agreement schedule] shall be made in the contractors running on account bills, till the revised estimate / deviation estimate regularizing these items are sanctioned by the competent authority of the company, at the provisional rates and shall not exceed:

- a) 75% of the rate recommended by the Engineer-in-Charge to the accepting authority of the company i.e. GM(C) of the company or SO(C) of the Area, if the rate is directly available in the SOR of the company/ if the rate is derived from available rate of BOQ.
- b) 50% of the rate recommended by the Engineer-in-Charge to the accepting authority of the company, i.e. GM(C) of the company or SO(C) of the Area , if it is analysed item rates based on prevalent market rates of materials and labour following CPWD / NBO norms.

Total payment for such extra items of work shall not exceed 10% of work order / agreement value /approved deviation estimate value. Alsototal paymentincluding extra items of work shall not exceed the work order / agreement / approved deviation estimate value.

PROVISIONSFORDEALING WITHVARIATIONSIN RESPECT OF ABNORMALLY HIGH RATE AND ABNORMALLY LOW RATE ITEMS.

The abnormally high rate items are those whose quoted rates are more than 20% of the justified rates decided by the owner.

The abnormally low rate items are those whose quoted rates are less than 20% of the justified rates decided by the owner.

In case of Item Rate Tenders, the revision of rates for (i)abnormally high rate itemsand (ii) abnormally low rate items, shall become operative under the following circumstances:-

For increase in quantity of more than 25% in respect of works executed below plinth level and 10% in respect of works executed above plinth level.

Quantity variation beyond the limit mentioned above shall be dealt by arriving at new rate based on prevalent market rate of materials and labouranalysed as per standard analysis of rate of CPWD/NBO. Payment of extra quantity over the permitted quantity as explained above would be made on the basis of the new analysed rate.

The variation in quantity of abnormally low rate items for item rate tenders shall notbe permitted below 25% for the items below plinth level and below10% for the items

above plinth level of the agreement schedule quantity, but in exceptional cases with written consent of Engineer-in-Charge arising out of technical necessity.

The above provisions shall be applicable for item rate tenders only and not applicable for percentage rate tenders for works based on standard schedule of rates of the company.

Forthepurposeofoperation, the following works shall be treated as works related to foundation, unless otherwise defined in the contract.

- a) ForBuildings:Allworksupto1.2metresabovegroundleveloruptofloor1 level whichever is lower.

For Roads, allitems of excavation and filling including treatment of subbase.

The time of completion of the originally contracted work shall be extended by the company in the event of any deviation resulting in additional cost over the awarded value, if requested by the contractor as follows:-

- (i) In the proportion which the additional cost of the altered, additional or substituted work (in value) bears to the original tendered value plus.
- (ii) 25% of the time calculated in (i) above or suchfurther additional time as may be considered reasonable by the Engineer-in-Charge.

The company through its Engineer-in-Charge or his representative, on behalf of the company, shall have power to omit any part of the work in case of non-availability of a portion ofthesiteorforanyotherreason andthecontractorshallbebound tocarryout therestoftheworkinaccordancewiththeinstructionsgiven bytheEngineer-in-Charge. No claim from the Contractor shall be entertained/ accepted on these grounds.

In the event of any deviation being ordered which in the opinion of the contractor changesradicallytheoriginalscope/natureofthecontract, the contractors hallunder no circumstances suspend the work, either original or altered or substituted, and the dispute/disagreement as to the nature of deviation and the rate/rates to be paid for such deviations shall be resolved separately with the company as per the procedures/norms laid down hereafter.

ExtensionofAMCcontracts(applicableonlyforAMCcontracts)The AMC Contracts shall be normally for two years oras specifiedin the NIT fromthedateofcommencement. However, in exceptional cases of exigencies, CIL/Subsidiary

reserves the right to Extend the Contract for a period of 30% of the contract period asspecified in NIT or for a period of 08 months, whichever is lesser after due appraisal ofperformance at the end of the Contract on the same terms and conditions.

6. TimeforCompletionofContract,Extensionthereof,DefaultsandCompensationfor Delay

Time is the essence of the contract and as such all works shall be completed within the time stipulated in the contract/ work order. The work shall, throughout the stipulated period of contract, be carried out with all due diligence on the part of the contractor.

Immediately after the contract is concluded i.e. LOA / Work Order is issued, the Engineer-in-Charge and the contractor shall agree upon a detailed time and progress chart prepared based on BAR CHART/ PERT CPM techniques on the basis of a construction schedule submitted by the contractor at the time of executing contract showing the order in which the work is proposed to be carried out within the time specified in the LOA /work order.

For the purpose of this detailed time and progress chart, the work shall be deemed to have commenced on the expiry of 10* (ten) days from the issue of Letter of Acceptance of Tender or 7(seven) days after handing over the site of work or handing over reasonable number of working drawings to the contractor or the period of mobilization allowed in the work order for starting the work in special circumstances, whichever is later. However, the Date of Commencement may be decided with mutual consent with the Contractor prior to the date as prescribed above.

* For Specialized Works/ High Value Works (above Rs. 5 crores), the period shall be 30 days.

If the contractor, without reasonable cause or valid reasons, commits default in commencing the work within the aforesaid time limit, the company shall, without prejudice to any other right or remedy, be at liberty, by giving 15 day's notice in writing to the contractor to commence the work, failing which to forfeit the Earnest Money deposited by him and to rescind the Letter of Acceptance of Tender/Work Order and also to debar the contractor to take part in the future re-tender.

The Company may debar such defaulting Contractors from participating in future Tenders for a minimum period of 12(twelve) months.

If the contractor fails to complete the work and clear the site on or before the date of completion or extended date of completion, he shall without prejudice to any other right or remedy available under the law to the company on account of such breach, pay as compensation (Liquidated Damages):

i) @ half percent (½%)of the contract amount/Revised Contract amount <u>excluding GST</u>whichever is less, per week or part of the weekof delay.

OR

ii) ½ % of the contract-value (excluding GST) of group of items/ revised completion value of group of items whichever is less, per week or part of the week of delay, for which a separate period of completion is originally given.

Theaggregateofsuchcompensation/compensationsshallnotexceed:

i) 10%(ten)percentofthetotalamountofthecontract/RevisedcontractamountexcludingGST, whichever is less.

OR

ii) 10%ofthecontract-value(<u>excludingGST</u>) of group of items/revised completion value of group of items whichever is less, for which a separate period of completion is originally given.

The amount of compensation may be adjusted or set off against any sum payable to the contractor under this or any other contract with the company.

TheLDwillbeapplicableontheprice(<u>excludingGST</u>) as varied by the operation of the Price Variation Clause i.e. price variation amount (<u>excluding GST</u>) shall be added/ deducted to the contract price (<u>excluding GST</u>) for deriving the LD.

The company, if satisfied, that the works can be completed by the contractor within a reasonable time after the specified time of completion, may allow further extension of time atits discretion with or without the levy of L.D. In the event of extension granted being with L.D, the company will be entitled without prejudice to any other right or remedy available in that behalf, to recover from the contractor as agreed damages equivalent to half percent of the contract amount/ Revised Contract amount of the works excluding GST whichever is less foreach week or part of the week subject to a ceiling as described at Cl.6.2

The company, if not satisfied that the works can be completed by the contractor, and in the event of failure on the part of the contractor to complete work within further extension of time allowed as a foresaid, shall be entitled, without prejudice to any other right, or remedy available in that behalf, to rescind the contract.

The company, if not satisfied with the progress of the contract and in the event of failure of the contractor to recoup the delays in the mutually agreed time frame, shall be entitled to terminate the contract.

In the event of such termination of the contract as described inclauses 6.2.2 or 6.2.3 or both, the company, shall be entitled to impose penalty/LD as deliberated at Clause 10. Additionally, the contractor shall be debarred from participating in the future tenders for a minimum period of 12 months.

In the event of recovery of any claim towards LD Charges, Penalty, fee, fine or any other charges (except EMD) from the supplier/vendor, the same will be recovered along with GST (if applicable)excluding GST and the amount shall be adjusted with the payment to be made to thesupplier/vendor against their bill/invoice or any other dues.

The company may at its sole discretion, waive the payment of compensation on request received from the contractor indicating valid and acceptable reasons if the entire work is completed within the date as specified in the contract/work order or as validly extended date without stipulating any compensation for delay.

ExtensionofContractTimeforcompletion

A. **Force Majeure (FM)**: Conditions beyond control of either parties like war, hostility, actsofpublicenemy,civilcommotion,sabotage,seriouslossordamagebyfire,

explosions, epidemics, strikes, lockouts or acts of God come under the legalconcept of Force Majeure (FM).

Delays in performance of contractual obligations under influence of FM conditions are condonable by the other party without any right to termination or damages, provided, notice of the happening of any such event is given by the affected party to the other within 30 (thirty) days from the date of occurrence duly certified bythe local chamber of commerce or statutory authorities, the beginning and end of FM occurrence and cessation of such Force Majeure condition. Works under the contract shall be resumed as soon as practicable after such event has come to an end or ceased to exist.

For delays arising out of Force Majeure, the bidder / contractor will not claim extension in completion date for a period exceeding the period of delayattributable to the clauses of Force Majeure and neither company shall be liable to pay nor bidder / contractor shall be liable to claim extra cost (like increase in rates, remobilization advance, idle charges for labour and materials etc.) provided it is mutually established that Force majeure conditions did actually exists.

B. Delaysin Execution

A work may be completed ahead of schedule or delayed due to unforeseenfortuitous circumstances, extra effort or developments beyond the control of CIL/Subsidiary or the tenderer and it is sometimes difficult to apportion credit or responsibility. The contractor may experience delay or disruption due to his own actions or inaction, those of his sub-contractor or other contractors, those of CIL/Subsidiary or the engineer, or other causes. Such delays expose the non- performing party to various sanctions under the contract. These sanctions include extension of time, damages or default termination of the contract. While examining the request of the contractor for extension of time, the engineer shall consider all circumstances and categorise the delays as follows:

- a) Excusable delays Force Majeure (FM), that is, acts of God, abnormal weather, floods, and so on, applies;
- b) Compensable delays or Compensation Events, which put full burden of responsibility on CIL/Subsidiary; and
- c) Inexcusable delay (contractor's own faults), which puts the full burden of responsibility on the contractor.
- d) Concurrent delays when two or more events responsible for delay overlap each other. The delays may be attributable to CIL/Subsidiary or the contractor or none, and fall in above categories. The eligibility for extension of time (EOT) should be determined by plotting each contributing concurrent delay on the critical path. CIL/Subsidiary should see that the concurrent delays donot result in unnecessary extra extension of time.
- C. Once the delay is categorised, it should then be determined not only whether the contractor is eligible for time extension but also whether sanctions, such as Liquidated Damage (LD) or default termination, can be imposed on the contractor.

- D. The time for completion of the work will be specified in the contract and it is understood that the completion of work within the time specified is an essential part ofthiscontract. Whileascertaining there as ons for delay beyond the control of contractor, the following delays shall be considered as "Hinderance":
 - a. Excusabledelays
 - b. Compensabledelays
 - c. PortionofConcurrentdelaystobedecidedjudiciouslybythe EIC.
- E. - F. **HINDERANCE REGISTER** shall be maintained by both department and the contractor at site to record the various hindrances encountered during the course of execution.

Hindrance register will be signed by both the parties. The contractor may also record his observations in the Hindrance Register. In case the contractor has a differentopinionforhindranceandadisputearisesthenthematterwouldbe

referred to the EIC and or the next higher authority whose decision would be final binding on the contractor & the decision to be communicated within 15 days.

G. Interim Extension of completion time may be granted by Tender Accepting Authority limited to GM(Civil)/HoD for HQ works and Area GM for area works asperprovisionofclause6.4.1below,basedontherecommendationoftheEngineer- in-Charge of the work during the course of execution of work reserving the right to impose/waive the clause relating to compensation for delay at the time of granting final extension of time depending upon the merit of the case. Final Extension of completion time is to be granted by Tender Approving Authority limited to CMD of CIL/ Subsidiary.

GeneralPrinciplesforGrantingExtensionofTime

- i) At the time of issuing notice inviting tenders for a particular work the Engineer-in-Chargeshouldspecifythetimeallowed forcompletion of theworkconsistentwiththe magnitude and urgency of the work.
- ii) The time allowed for carrying out the work as entered in the contract shall be strictly observed by the contractor and shall be reckoned from the Date of Commencement of the work as given to the contractor.
- iii) The work shall throughout the stipulated period of the contract be proceeded with all due diligence (time being deemed to be the essence of the contract) on the part of the contractor.
- iv) To ensure good progress of work during the execution, the contractor shall meticulously followthepreset time and progress chart and in the event of slippages in one segment, all efforts will be made to liquidate the slippages in the next stages.
- v) If the contractor shall desire an extension of time for completion of work on the grounds of his having been unavoidably hindered in its execution or on any other grounds as mentioned above shall make application to Engineer-In-Charge for extension of contract within a reasonable period prior to expiry of Contract Period (Preferably not later than 15 days prior to expiry of Contract Period). Engineer-In-Charge shall process the proposal based on the merit of the case for obtaining approval of Competent Authority. Such extension shall be communicated to the contractor in writing by the company through Engineer-in-Charge before the expiry of Contract Period.
- vi) Engineer-in-Charge shall process extension of time for the completion of the workif the following conditions are satisfied:
 - a) The contractormust apply to the Engineer-in-Chargeinwriting for extension of time.
 - b) Suchapplicationmuststatethegroundswhichhinderedthecontractorinthe

execution of the work within the stipulated time.

- c) Such application must be made within a reasonable period prior to expiry of ContractPeriod(Preferably not laterthan15days priortoexpiryofContract Period).
- d) The Engineer-in-Charge must be of the opinion that the grounds shown for the extension of time are reasonable.

Vii) Deleted

- viii) The opinion of the Engineer-in-Charge, whether the grounds shown for the extension of time are or not reasonable, is final. If the Engineer-in-Charge is of the opinion that the grounds shown by the contractor are not reasonable and declines to process the extension of time, the contractor may approach concerned SO(C) /GM (C) /Director (As the case may be) whose opinion shall be final and binding on all concerned.
- ix) All interim extensions of time shall be granted by Tender Accepting Authority limited to GM(Civil)/HoD for HQ works and Area GM for area works and all final extension of timeshallbegrantedbyTenderAcceptingAuthoritylimitedtoChairman/ CMD of CIL/ Subsidiary.

Effortshouldbemadetocompletetheworkwithintheoriginalcontractperiodor extended period.

- x) In case the contractor does not apply for grant of extension of time before the expiry of contract period and the department wants the contractor to continue with the work beyond the stipulated date of completion, the Engineer-in-Charge can process proposal for extension of time even in the absence of application from the contractor as per the following guidelines:
 - a) Whenever any hindrance comes to the notice of the In Charge of the work, he should at once make a note of such hindrance in the register kept at site. He should also make a report to EIC of the occurrence of such hindrance.
 - b) The proposal for extension of time should be processed by EIC for obtaining the approval of Competent Authority (Ref Cl (ix) above . This should be processed preferably 15 days prior to the expiry of Contract Period.
 - c) If theorders of the higher authority are not received intime, heshouldextend the contract before the stipulated date actually expires so that the contract might remain in force but while communicating this extension of time, he must inform the contractor that this was without prejudice to Company's right to levy compensation under relevant clause of the agreement. Such extension of time given by EIC shall be considered as fait-accompli in future.
- xi) Theperiodduringwhichthecontractremainsvalidisamatterofagreement

andiftheperiodoriginallysetforthecompletion of theworkcomestoanendnothing short of agreement of the party can extend the subsistence and validity of the contract.

xii) When the period fixed for the completion of the contract is about to expire, the question of extension of the contract may be considered at the instance of the contractor or the Department or of both.

The extension, in order to be binding, will have to be by parties' agreement, expressor implied.

It therefore, follows that if the extension of time is issued /granted by the Engineer-in-Charge suo-moto as per provisions of Contract Agreement as per Cl 6.4.1(x) and such extension of time is accepted by the contractor, either expressly or implied by his actions before and subsequent to the date of completion, the extension of time granted by the Engineer-in-Charge is valid.

xiii) It is, therefore, necessary that the Engineer-in-Charge grants extension of time as per provisions of the contract even when the contractor does not apply for extension of time in order to keep the contract alive. If the contractor refuses to act upon the extension so granted by Engineer-in-Charge, it will attract the provisions of appropriate clauses of the agreement.

The contractor shall however use his best efforts to prevent or make good the delayby putting his endeavors constantly as may be reasonably required of him to the satisfaction of the Engineer-in-Charge.

7. MaterialSupply&otherfacilities:

The contractor shall at his own expense, provide all materials required for the work, unless otherwise specified and the rates quoted by the contractor shall be for finished work inclusive of all materials required for completion of the work as specified in the contract.

*Thecompanymay, of its own or at the request of the contractor, supply such materials as may be specified, if available, at rate/rates to be fixed by the Engineer-in-charge.

For the materials which the company has agreed to supply for the contract, the contractor shall give in writing of his requirements in accordance with the agreedphased programme to the Engineer-in-charge sufficiently in advance.

same and all expensesconsequent thereon shall be recoverable from the contractor or may be deducted from any amount due or which may be comedue to the contractor.

Devaluation of Work :In lieu of rejecting work done or materials supplied not in conformity with the contract/work order/approved samples, the Engineer-in-charge or any other officer nominated by the company for the purpose may allow such workor materials to remain, provided the Engineer-in-Charge/ the officer nominated by the company is satisfied with the quality of any materials, or the strength and structural safety of the work, and in that case shall make such deduction for the difference invalue, as in his opinion may be reasonable.

Final Inspection of Work: The Engineer-in-charge and any other officer nominated by the company for the purpose shall make final inspection of all work included in the contract/work order, or any portion thereof, or any completed structure forming part of the work of the contract, as soon as practicable after notification by the contractor that the work is completed and ready for acceptance. If the work is not acceptable to the Engineer-in-charge at the time of such inspection, he shall inform the contractor in writing as to the particular defects to be remedied before final acceptance can be made.

Defects appearing after acceptance: Any defects which may appear within the defect liability period and arising, in the opinion of the Engineer-in-charge, from lack of conformance with the drawings and specifications, shall, if so required by the Engineer-in-charge in writing, be remedied by the contractor at his own cost within the time stipulated by the Engineer-in-charge. If the contractor fails to comply, the Engineer-in-charge may employ other persons to remedy the defects and recover the cost thereof from the dues of the contractor.

Site Order Book: ASite Order Book is a Register duly certified by the Engineer-incharge regarding number of pages it contains, each page being numbered, name ofwork, name of contractor, reference of contract/ work order and the aforesaidcertificate should be recorded on its first page.

SiteOrderBooksshallbemaintained onthesitesof works and should never be removed there from under any circumstances. It shall be the property of the company. The Engineer-in-Charge or his authorized representative shall duly record his observations regarding any work which needs action on the part of the contractor like, improvement in the quality of work, failure to adhere to the scheduled programme etc. as per contract/work order. The contractor shall promptly sign the site order book and note the orders given therein by the EIC or his representative and comply with them. The compliance shall be reported by the contractor in writing to EIC in time so that it can be checked.

The Site Order Book will be consulted by the Engineer-in-Charge at the time of making both running on account and final bills of the contractor. A certificate to this effect should be given in the Measurement books by the Engineer-in-Charge or his representative.

Samples and Testing of Materials: All the materials to be procured by the contractor and to be used in work shall be approved by the Engineer-in-Charge in advance, and shall pass the tests and analysis required by him, which will be as specified in the specifications of the items concerned and or as specified by BIS or the IRC / MORTH standard specifications acceptable to the Engineer-in-Charge. The method of sampling and testing shall be as per the relevant BIS, IRC/ MORTH and other relevant standards and practices. Minor minerals like sand, stone chips etc. shall be conforming to relevant BIS standards. All bought out items including Cement and Steel shall be procured from such manufacturers who hold valid license conforming to relevant BIS standards for manufacturing of such items.

Storage of Materials:Materials shall be so stored as to ensure the preservation of the quality and fitness for the work. When considered necessary by the Engineer-incharge, they shall be placed on wooden platforms or other hard, clean surfaces and not directly on the ground.

Materials shall be placed under cover when so directed and the contractor shall erect and maintain at his own cost temporary weather-proof sheds at the work site for the purpose. Stored materials shall be so located as to facilitate prompt inspection. All stored materials shall be inspected at the time of use in the work, even though they may have been inspected and approved before being placed in storage or during storage.

Defective Materials: All materials not conforming to the requirements of the specifications shall be considered as defective, and all such materials, whether in placeor not shall be rejected. They shall be removed immediately by the contractor at his expenses and replaced with acceptable material.

No rejected material, the defects of which have been subsequently corrected, shall be used on the work until approval in writing has been given by the Engineer-in-Charge. Upon failure on the part of the contractor to comply with any instruction of the Engineer-in-charge made under the provisions of this article within the time stipulated by the Engineer-in-charge, the Engineer-in-charge shall have authority to remove and replace defective material and recover the cost of removal and replacement from the contractor.

Further all such defective material lying at site not removed and replaced within 30 days after issue of notice by the Engineer-in-charge, if the Engineer-in-charge so decides shall dispose off such material in any manner without any further written notice to the contractor.

9. Measurementand Payments

Except where any general or detailed description of the work in the Bill of Quantities or specifications of the contract/ work order provides otherwise, measurement of work done shall be taken in accordance with the relevant standard method of measurement published bytheBureauof Indian Standards (BIS) andifnot coveredby the above,other relevant Standards/practices shall be followed as per instructions of the Engineer-in-Charge.

All items of work carried out by the contractor in accordance with the provision of the contract having a financial value shall be entered in the Measurement Book as prescribed by the company so that a complete record of the measurements is available for allthe works executed underthe contract andthevalueof the work executed canbe ascertained and determined there from. Measurements of completed work / portion of completed work shall be recorded only in the Measurement Books.

Measurement shall be taken jointly by the Engineer-in-Charge or his authorized representative and by the contractor or his authorized representative.

Before taking measurements of any work, the Engineer-in-Charge or the person deputed by him for the purpose shall intimate the contractor to attend or to send his representative to attend the measurement. Every measurement thus taken shall be signed and dated by both the parties on the site on completion of the measurement. If the contractor objects to any measurements, a note to that effect shall be made in the Measurement Book / Log Book and signed and dated by both the parties.

The measurement of the portion of work/items of work objected to, shall be remeasured by the Engineer-in-Charge himself or the authority nominated by thecompany for the purpose in the presence of the contractor or his authorized representative and recorded in the M.B. which shall be signed and dated by both the parties. Measurements so recorded shall be final and binding upon the contractor andno claim whatsoever shall thereafter be entertained.

In case the contractor or his authorized representative does not attend to the joint measurements at the prefixed date and time after due notice, the measurements taken by the Engineer-in-Charge or his representative shall be final and binding on the contractor.

Measurement of the extra items of work or excess quantities of work duly authorized in writing by the Engineer-in-Charge shall also be taken and recorded intheM.B.based on the existing items in the SOR of the company and if such items do not exist in the company's SOR, the description of the work shall be as per actual execution. Paymentfor such extra items will be based on the rates to be derived as described in the relevant clauses of the contract/ work-order.

No work shall be covered up or put out of view without the approval by the Engineer-in-Charge and recording of measurements and check measurement thereof duly accepted by the contractor. The contractor shall provide full opportunity to the Engineer-in-Charge or his representative to examine and measure all works to be covered up and to examine the foundations before covering up.

The contractor shall also give notice to Engineer-in-Charge whenever such works or foundations are ready for examination and the Engineer-in-Charge shall without unreasonable delay arrange to inspect and to record the measurements, if the work is acceptable and advise the contractor regarding covering of such works or foundations.

In case of items which are claimed by the contractor but are not admissible according to the department, measurements of such items, will be taken for record purposes only and without prejudice so that in case it is subsequently decided by the department to admit the contractor's claims, there should be no difficulty indetermining the quantities of such work. A suitable remark should, however, be made against such measurements to guard against payment in the ordinary way.

Payments: The running on account payments may be made once in a month or at intervals stipulated in the work order/ contract agreement.

Running on account bill/bills for the work executed/ materials supplied in accordance with the work order/ contract shall be prepared on the basis of detailed measurements recorded as described hereinbefore and processed for payments.

Payment of on account bill shall be made on the Engineer-in-Charge's certifying the sum to which the contractor is considered entitled by way of interim payment forthe following:

2. ApplicationofPriceVariationClause.

If the prices of materials (not being the materials supplied at fixed issue rates by thecompany) and wages of labour required for execution of the work increase or decrease, the contractor shall be compensated for such increase or recoveries will be made from the bills for such decrease as per provisions detailed hereafter:

a) The amount of the contract shall accordingly be varied subject to the condition that such compensation for escalation/ de-escalation in price shall be available only for the work done during the stipulated period of the contract including such period for which the contract is validly extended under the provisions of the contract without any penal action as detailed in clause no. 2.6. The Price Variation Clause shall not be applicable for works for which stipulated period of completion is less than one year.

- b) The base date for working out such escalation/de-escalation shall be the last date on which the bids (inclusive of price part) or revised price bids (inclusive of revised offer) were stipulated to be received.
- c) The compensation for escalation or recoveries to be made shall be worked out at quarterly intervals and shall be with respect to the cost of work done during theprevious three months. The first such payment will be made at the end of three months after the month (excluding) in which the tender was accepted and thereafter at three months interval.
- d) Job specific modification in the formulae of price variation given in the following para(s) can be done with the approval of the CMD of the company.
- **Escalation/ De-escalation for Labour:** The amount paid to the contractor for the work done shall be adjusted for increase or decrease in the cost of labour and the cost shall be calculated quarterly in accordance with the following formula:

$$\frac{\text{VL=W}\times^{A}}{100}\times\frac{L-L0}{Le}$$

While calculating the value of "W" the following may benoted: The cost on whichthe escalation will be payable shall be reckoned as 85 % of the cost of work as per thebills to which escalation relates, and fromthis amount the value of materials supplied orservices rendered at the prescribed charges under the relevant provisions of thecontract, and proposed to be recovered in the particular bill, shall be deducted beforethe amount of compensation for escalation or de-escalationis worked out. In the case of materials brought to site for which any secured advance is included in the bill, the fullvalue of such materials as assessed by the Engineer-in-Charge (and not the reduced)

amount for which secured advance has been paid) shall be included in the cost of workdone for operation of this clause. Similarly, when such materials are incorporated in thework and the secured advance is deducted from the bill, the full assessed value of thematerials originally considered for operation of this clause should be deducted from thecost of the work shown in the bill, running or final. Further the cost of work shall notinclude any work for which payment is made at prevailing market rates.

In the event the price of materials and/ or wages of labour required for execution of the work decreases, there shall be downward adjustment of the cost of work so that such price of materials and/or wages of labour shall be deductible from the cost of workunder this contract and in this regard the formulae herein before stated under this clause shall mutatis/mutandis apply. No such adjustment for the increase / decrease inmaterial price and/ or wages of labour before mentioned would be made in case of contracts in which the stipulated period of completion of the work is less than one year.

Applicationof Price Variation Clause during extended periodof Contracts.

The Price Variation Clause as stated above will be applied for extended time frame of acontract by following the principle stated as under:

i) Normally, if and when it is understood that a contract is not going to be completed within the scheduled time period, the contract is kept operative by extending the timeof completion provisionally. During this provisional extended period the operation of the Price Variation Clause will remain suspended.

ii) If and when it is decided at the end of the successful completion of the work that thedelay was due to causes not attributable to the contractor, then the Price VariationClause will be revived and applied as if the scheduled date of completion has beenshifted to the approved extended date.

iii) If it isdecided at theendof successful completion of the work that thedelay was due to the fault of the contractor then the Price Variation Clause will not be revived for thepurpose of escalation but shall be revived and applied for the purpose of deescalationand no further payment will be made to the contractor on account of any escalationduring this period but recovery shall be made for deescalation, if any. Additionally, the Clause related to Compensation for delay will be applied.

iv) If it is decided at the end of successful completion of work, the delay was partly due to the fault of the employer and therebyLiquidated Damages (LD)/compensation due to delay is imposed then price variationclause for the purpose of escalation shall not be revived for this extended period, butshall be revived and applied for the purpose of de escalation.

Nopaymentwillbemadebyapplying"FROZENINDICES"underanycircumstances.

SPECIALTERMSANDCONDITIONSFORCONSTRUCTIONANDMAINTENANCEOFHAUL ROADS

(Nottobeincludedintenderdocumentsofotherworks)

1. BillofQuantities

a. The Bill of Quantities shall contain items for the construction, installation, testing, commissioning, maintenance works (as applicable in the work) and lump sumamount per year for annual routine maintenance for each of the five yearsseparately, to be done by the Contractor.

The Bill of Quantities is used to calculate the Contract Price. The Contractor is paidforthequantityoftheworkdoneattherateintheBillofQuantitiesforeachitemforthe construction of roads. The payment for routine maintenance of roads to theContractor is performance based. For certification of payment for routinemaintenance, the engineer shall determine whether the contractor has actuallyachieved compliance to the Service Quality Level (and other requirements) specifiedin the Scope of Work, with reference to 100 point (hundred point) PerformanceIndex assigned to various maintenance and the engineer shall certify the amount tobe paid to the contractor (refer clause 4 of special terms and conditions).

If contractor has not corrected a Defect pertaining to the Defects Liability Period ornot attended maintenance work to the required standard and performance index isequal to or less than 70 points (Seventy points), no payment will be released for that period even if such maintenance is attended in subsequent months. If performance index is 100 points, full payment at the approved rate shall be released. If performance index is between 70 to 100, proportionate payment will be made for the work during the claim period as per the following formulae:-

Percentageoftotalannualpaymenttobereleased= <u>10*(AchievedPerformanceIndex-70)</u>

Note: The Subsidiaries may add/modify the procedure that it would like to adopt forassessing the performance of the Contractor in execution of works / activities relating to Routine Maintenance for five years post construction. (However, the NITmust contain the specific procedure to decide Per-formance Index).

b. Fortheconstructionworks, the quantities given in the Billof Quantities are estimated, and are given to provide a common basis for bidding. The basis of payment will be the actual quantities of work ordered and carried out, as measured by the Contractor and verified by the Engineer and valued.

(i) attherates and pricestendered in the Bill of Quantities in the case of item rate tenders;

- (ii) at percentage rate above or below or at par of the Schedule of Rates as tendered by the Contractor.
- c.Fortheroutinemaintenanceof roads,thereshallbealumpsumamountas specifiedin the contract document for each year of maintenance. This lump sum amount formaintaining the roads in compliance with the conditions mentioned herein after, shall be 2.5% of the contract value for the construction of the roads for the firstthree years of maintenance & 3% of the contract value for the construction of theroads for the last two years of maintenance.
- d. The rates quoted by the bidder in the Bill of Quantities shall, except in so far as it isotherwise provided under the Contract, include all constructional plant, labour, supervision, materials, erection, maintenance, insurance, profit, taxes and duties, together with all general risks, liabilities and obligations set out in the Contract.

This amount for maintaining the roads in compliance with the conditions mentioned herein after, shall be 2.5% of the contract value for the construction of the roads for the first three years of maintenance & 3 % of the contract value for the construction of the roads for the last two years of maintenance.

2. QualityControl

Identifying Defects

The Engineer shall check the Contractor's work and notify the Contractor of any Defects that are found. Such checking shall not affect the Contractor's responsibilities. The Engineer may instruct the Contractor to search for a Defect and to uncover and test any work that the Engineer considers may have a Defect.

Tests

TheContractorshallbesolelvresponsiblefor:

- (a) Carrying out the mandatory tests prescribed in the MORTHs Specifications and
- (b) Forthecorrectness of the testresults, whether preformed in his laboratory or elsewhere.

If the Engineer instructs the Contractor to carry out a test not specified in the Specifications to check whether any work has a Defect and the testshows that it does, the Contractor shall pay for the test and any samples. The remaining provisions regarding Tests shall be in accordance with the clause 8 of the General Terms & Conditions.

Correctionof Defects noticed during the Defects Liability Periodand Routine Maintenance of Roads for five years.

The Engineer shall give notice to the Contractor of any Defects before theendoftheDefectsLiabilityPeriod,whichbeginsfromtheCompletiondateofthe Contract (The contract period shall be the sum of the constructionperiod and five years of maintenance period).

Every time, notice of Defect/Defects is given, the Contractor shall correct the notified Defect/Defects within the duration of time specified by the Engineer's notice.

The Contractor shall do the routine maintenance of roads will includerepairing of all components of haul roads like GSB, Base courses, wearingsurfaces etc., dressing/repairing of Shoulders, repairing and cleaning ofdrains & Culverts as & when required and keep the entire road surfaceand structure in Defect free condition during the entire maintenanceperiod which begins from the completion date of haul road constructionand ends after five years.

- (vii) Anyothermaintenanceoperationrequiredtokeeptheroadt rafficworthyatall times during the maintenanceperiod.

To fulfil the objectives laid down above, the Contractor shall undertakedetailed inspection of theroadsfortnightly. The Engineer can increase this frequency in case of emergency. The Contractor shall forward to the Engineer the record of inspection and rectification fortnightly. The Contractor shall pay particular attention on those road sections which are likely to be damaged or inundated during rainy season.

The Engineer may issuenotice to the Contractorto carry out maintenanceof defects, if any, noticed in his inspection, or brought to his notice. The Contractor shall remove the defects within the period specified in the notice and submit to the Engineer a compliance report.

UncorrectedDefects

If the Contractor has not corrected a Defect pertaining to the DefectsLiability Period or not attended maintenance to the satisfaction of

the Engineer within the time specified in the Engineer's notice, action under will be taken and the Engineer will assess the cost of having the Defect corrected, and the Contractor will pay this amount along with addition al 20% amount aspenalty.

Retention Money may be refunded against equivalent Bank Guarantee, on written request of the contractor, on its accumulation to amount of Rs. 25 lakhs subject to the condition that amount of any Bank Guarantee except last one, shall not be less Rs. 25 lakhs.

However, Bank Guarantee against retention money shall be with suitable validity based on nature of work which shall be 90 days beyond the defect liability period, but in no case less than the period of one year.

Bank Guarantee is to be submitted in the format prescribed by the company. Bank Guarantee shall be irrevocable and will be from Scheduled Commercial Banks as elaborated at Clause 6.2.

The Defect Liability Period shall be six month or one monsoon period whichever is more after the completion of contract i.e. Construction and maintenance both.

TheCompany shallbeatliberty todeduct/appropriatefromthesecuritydepositsuchsumsasaredueand payable by the contractor to the company as may be determined in terms of the contract, and the amount appropriated from the security deposit shall have to be restored by further deduction from the contractors subsequent on account running bills, if any.

REFUND OF SECURITY DEPOSIT: The refund of security deposit shall be subject to company's right to deduct/ appropriate its due against the contractor under this contract or under any other contract.

<u>First part of the security deposit remaining with the company (i.e. Performance Security)</u> 50% of the Security Deposit (i.e. 5% of the contract value) shall be refunded after three years of completion of construction work and the rest shall be refunded to the contractor after issue of No Defect Certificate by the Engineer-in-Charge on the expiry of Defect Liability Period of six months, subject to the following conditions:

- a) Anydefect/defectsinthework,ifdetectedafterissueofdefectliabilitycertificate (Takingovercertificate with list of defects) is/are rectified to the satisfaction of the Engineer-in-Charge within the said defect liability period of six months or on its due extension till completion of therectification works as required.
- b) The refund shall be made on the expiry of the said six months period or at the end of one full monsoon period i.e. June to September, whichever is later in point of time and any defects should be rectified to the satisfaction of Engineer-in-Charge.

ConsiderationofAbnormallyLowBids(shallbedealtasperrespectiveclausein GTC)

In case of Abnormally Low Bid, CIL/ Subsidiary may in such cases seek writtenclarifications from the lowest bidder(s), including detailed price analyses of its bid pricein relation to scope, schedule, allocation of risks and responsibilities, and any otherrequirements of the bid documents. If, after evaluating the price analysis, CIL/Subsidiary determines that the bidder(s) has substantially failed to demonstrate itscapability to deliver the contract at the offered price, CIL/ Subsidiary may reject the bid

WateringRoads

At mines environmental concerns are high on the list of priorities in any area of theoperation. Dustisaconcernatsite particularly in winterwhen conditions are very dry. Excessive dust is also a safety issue because it is a visibility hazard, and can put stresson machinery by clogging air filters, brakes and other moving parts. Watering the haulroads counters these dust problems by controlling the amount of dust in the air.

But overwatering can create its own problems as road surfaces can become veryslippery paving the wayforroad degradation and loss traction for mine vehicles. Roadwatering procedures need to be developed at mining operations to ensure that dustlevels are kept down and watering is not excessive. Haul roads are intermittentlywateredtoprovidedrybrakingareasfortrucksonthedownsideoframpsandto ensurethattheupsideisnot over watered.Pitfloorsandloading areasarewateredtosuppressdustduring loading cycles. Haul roads are watered so that they are damp, not wet, and oncorners watering is lighter so that vehicular control ismaintained.

GradingRoads

Grading is a major component of any haul road maintenance system. Cleaning up ofspilled materials and maintaining the drainage system, the road design parameters, and the road bases all rely on the operation of a grader.

Thefinallevelofroadafterconstructionshouldbethebenchmarktocalculatelossofmetalandtor eplenishat regular interval after loss reaches to a specified limit. Levelling shall bedone quarterly if the loss of thickness is equal to or greater than 75mm.

Grading is the main approach to preserving the good working order of the drainagesystematmines. Grading is a particularly important process during the wet seasonbecause it helps diminish the effects of wet weather. Immediately after rain, gradersmust clean up road surfaces by grading out scours and filling in ruts and pools ofwater. This prevents truck shauling on slippery pavements and stops them churning up the road surface with their tyres.

Whentheroadpavementreachesathicknessthatcannolongersupportvehicles,resheetingis required. Freshsurface materials are laid and then compacted by heavy rubber-tyredmachinery.

At times, more serious road maintenance is required. When the road surface iscorrugated or contains hollows or potholes, repairs may consist of loosening theexisting surface and reshaping it. As long as the surface is of sufficient thickness, it can eripped with grader tynes and then reshaped and compacted. If the surface layer isnot thick enough, fresh materials are brought in. Depressions in the road that gradingcannot sufficiently mend, are lightly scarified and filled with material similar to the the surrounding surface material. To restoreareas affected by large potholes cause byweaknesses in the pavement or subgrade, damaged areas need to be excavated andthen filled with material similar to that of the surroundingsurface.

Grading should be performed when the roads are damp so no loose material is lostdue to wind or traffic. Another advantage of this is that damp materials fill all lowspots and hollows and can be easily compacted by passing traffic.

MaterialSpillage

Spillage of material from Dumpers is a common occurrence and is particularly prevalent on corners and switch backs. If spillage is not prevented or is cleaned up, bumps and irregularities in the road surface will be allowed to develop.

Spillage can be prevented in the design stage through good design of cornersincorporating super-elevation and adequate turning radius. However, if spillage doesoccur a grader should be used to clear spills, and to fill and smooth any depressionsthat spilled material creates. Care must be taken not to clear this material into drainsor to disrupt safety berms. Accumulated material from this maintenance procedureshould beremoved.

Spillage on haul roads and clean up around excavators and shovels is usually carriedout with a rubber-tired dozer.

Maintenance of Drains

Roadside drains and culverts need to be kept clear of obstructions to preventoverflowing in heavy rainfall leading to damage to road pavements or saturation of the sub-bases. Inspection of these facilities and action to clear the drains if need be, isrequired on a regularbasis.

Drains are usually located alongside the majority of roads and are a key component of the drainage system. These drains are essential to maintain the integrity of the haulroads, thus must be kept in good condition to protect the roads.

Drains often have a large amount of water to accommodate, particularly during thewet season, and at times, the flow of water can be considerable. This can causescouring and loss of condition of the drain lining.

Frequent maintenance of these drains is required. Grading the drains to removedebris and fines, which may hinder flow, and also to restore the design geometry is amandatoryprocedure. Any scouring of these drains need to be considered and in

problemareas, drains may need to be lined with rockoranother durable, non-weatherable material.

Maintenance of Signs

Traffic signs are an integral part of the safety scheme at any mine. Road signs need tobe unambiguous and obvioustodriversinallconditions. It is important to keep signage cleans othey are clearly readab leatall times. Signs should be washed after periods of rain to ensure that they remain clear and free build-up of dirt and spray.

SAFETY CODE.

The Contractor must ensure safety of workmen as well as safety for the general public during construction in and around work-site. The contractormust follow the laws, codes and standards laid down in this regard. The work-men must be trained and provided protective gear, life-savingequipmentandappropriate tools fortheir jobs. Specialprecautions mustbe used if hazardous chemicals are used or stored at workplace (lead, silica, asbestos and wood/stone that will be cut and generate dust, construction materials containing zinc, cadmium, beryllium and mercury). Besides protection from noise and environmental pollution, public must also be safeguarded from falling through dug-up area, electrocution, flooding, falling objects, bridge-span dropping/ failures, crane falling/ overturning and damage to building from vibrations/ cave-ins from construction activities. Engineer must ensure that contractor does not adopt any short-cut in this regard. Appointment of site safety engineer by the contractor is a mandatory requirement (in case estimated cost is Rs 100 Cr or more). In tenders with estimated cost is less than Rs 100 Cr, site in-charge of the contractor will also act as safety engineer. In case estimated cost of Rs 100 Cr or more, the engineer shall engage safety experts to carry out frequent safety audits and mandatecorrect measures.

- 1. Suitable scaffolds should be provided for workmen for all works that cannot safely be done from the ground, or from solid construction except such short period work as can be done safely from ladders. When a ladder is used, an extra mazdoor shall be engaged for holding the ladder and if the ladder is used for carrying materials as well suitable footholdsandhand-holdshallbeprovidedontheladderandtheladdershallbegivenan inclination not steeper that ¼ to 1 (¼ horizontal and 1 vertical).
- 2. Scaffolding of staging more than 3.6 m (12ft). above the ground or floor, swung or suspended from an overhead support or erected with stationary support shall have a guardrailproperlyattachedorbolted, braced and otherwise secured atleast 90 cm (3ft) high above the floor or platform of such scaffolding or staging and extending along the entire length of the outside and ends thereof with only such opening as may be necessary for the delivery of materials. Such scaffolding or staging shall be so fastenedas to prevent it from swaying from the building or structure.
- 3. Working platforms, gangways and stairways should be so constructed that they should not sag unduly or unequally, and if the height of the platform or the gangway or the stairway is more than 3.6 m (12ft) above ground level, they should be closely boarded, should have adequate width and should be suitably fastened as described in (2) above.
- 4. Every opening in the floor of a building or in a working platform shall be provided with suitable means to prevent the fall of person or materials byproviding suitable fencing or railing whose minimum height shall be 90 cm (3ft).
- 5. Safety means of access shall be provided to all working platforms and other working places. Every ladder shall be securely fixed. No portable single ladder shall be over 9 m (30ft) in length while the width between side rails in rung ladder shall in no case be less than 20 cm (11 ½") for ladderupto and including 3 m (10ft) inlength. For longer ladders,

this width should be increased at least ¼" for additional 30 cm (1ft.) of length. Uniform step spacing of not more than 30 cm shall be kept. Adequate precautions shall be taken to prevent danger from electrical equipment. No materials on any of the sites or work shall be so stacked or placed as to cause danger or inconvenience to any person or the public. The contractor shall provide all necessary fencing and lights to protect the public from accident and shall be bound to bear the expenses of defence of every suit, actionor other proceedings at law that may be brought by any person for injury sustained owing to neglect of the above precautions and to pay any damages and cost which may be awarded in any such suit; action or proceedings to any such person or which may, with the consent of the contractor, be paid to compensate any claim by any suchperson.

- 6. Excavation and Trenching: All trenches 1.2 m (4ft) or more in depth, shall at all times be supplied with at least one ladder for each 30 m. (100 ft.) in length or fraction thereof. Ladder shall extend from bottom of the trench to at least 90 cm (3ft) above the surface of the ground. The side of the trenches which are 1.5 m (5ft) or more in depth shall be stepped backto give suitable slope or securely held by timberbracing, soas to avoid the danger of sides collapsing. The excavated materials shall not beplaced within 1.5 m (5ft) of the edges of the trench or half of the depth of the trench whichever is more. Cutting shall be done from top to bottom. Under no circumstances, undermining orundercutting shall be done.
- 7. Demolition: before any demolition work is commenced and also during the progress of the work,
 - i. All roads and open areas adjacent to the work site shall either be closed or suitably protected.
 - ii. No electric cable or apparatus which is liable to be a source of danger or a cable or apparatus used by the operator shall remain electrically charged.
 - iii. All practical steps shall be taken to prevent danger to persons employed from risk of fire or explosion or flooding. No floor, roof or other part of the building shall be so overloaded with debris or materials as to render it unsafe.
- 8. All necessary personal safety equipment as considered adequate by the Engineer-in-Charge should be kept available for the use of the person employed on the site and maintained in a condition suitable for immediate use, and the contractor should take adequate steps to ensure proper use of equipment by those concerned:- The following safety equipment shall invariably be provided.
 - i) Workers employed on mixing asphaltic materials, cement and lime mortars shall be provided with protective footwear and protective goggles.
 - ii) Those engaged in white washing and mixing or stacking of cement bags or anymaterial which is injurious to the eyes, shall be provided with protective goggles.

- iii) Those engaged in welding works shall be provided with welder's protective eyeshields.
- iv) Stone breaker shall be provided with protective goggles and protective clothing and seated at sufficiently safe intervals.
- v) When workers are employed in sewers and manholes, which are in active use, the contractors shall ensure that the manhole covers are opened and ventilated atleastforanhourbeforetheworkersareallowedtogetintothemanholes, and the manholes so opened shall be cordoned off with suitable railing and provided with warming signals or boards to prevent accident to the public. In addition, the contractor shall ensure that the following safety measures are adhered to:
 - a) Entry for workers into the line shall not be allowed except under supervision of the Engineering Assistant or any other higher officer.
 - b) At least 5 to 6 manholes upstream and downstream should be kept open forat least 2 to 3 hours before any man is allowed to enter into the manhole for working inside.
 - c) Before entry, presence of Toxic gases should be tested by inserting wet lead acetate paper which changes colour in the presence of such gases and gives indication of their presence.
 - d) Presence of Oxygen should be verified by lowering a detector lamp into the manhole. In case, no Oxygen is found inside the sewer line, workers should be sent only with Oxygen kit.
 - e) Safetybelt with rope should be provided to the workers. While working inside the manholes, such rope should be handled by two men standing outside to enable him to be pulled out during emergency.
 - f) The area should be barricaded or condoned of by suitable means to avoid mishaps of any kind. Proper warming signs should be displayed for the safety of the public whenever cleaning works are undertaken during night or day.
 - g) No smoking or open flames shall be allowed near the blocked manhole being cleaned.
 - h) The malba obtained on account of cleaning of blocked manholes and sewer lines should be immediately removed to avoid accidents on account of slippery nature of the malba.
 - i) Workers should not be allowed to work inside the manhole continuously. He should be given rest intermittently. The Engineer-in-Charge may decide the time up to which a worker may be allowed to work continuously inside the manhole.

- j) GasmaskswithOxygenCylindershouldbekeptatsiteforuseinemergency.
- k) Air-blowers should be used for flow of fresh air through the manholes. Whenever called for, portable air blowers are recommended for ventilating the manholes. The Motors for these shall be vapour proof and of totally enclosed type. Non sparking gas engines also could be used but they should be placed at least 2 meters away from the opening and on the leeward side protected from wind so that they will not be a source of friction on any inflammable gas that might be present.
- I) The workers engaged for cleaning the manholes / sewers should be properly trained before allowing to work in the manhole.
- m)The workers shall be provided with Gumboots or non-sparking shoes bump helmets and gloves non sparking tools safety lights and gas masks and portable air blowers (when necessary). They must be supplied with barrier cream for anointing the limbs before working inside the sewer lines.
- n) Workmen descending a manhole shall try each ladder stop or rung carefully before putting his full weight on it to guard against insecure fastening due to corrosion of the rung fixed to manhole well.
- o) If a man has received a physical injury, he should be brought out of the sewer immediately and adequate medical aid should be provided to him.
- p) The extents to which these precautions are to be taken depend on individual situation butthedecision of the Engineer-in-Charge regarding the steps to be taken in this regard in an individual case will be final.
- vi) The Contractor shall not employ men and women below the age of 18 years on the work of painting with products containing lead in any form. Wherever men above the age of 18 are employed on the work of lead painting, the following precaution should be taken:
 - a) No paint containing lead or lead products shall be used except in the form of paste or readymade paint.
 - b) Suitable face masks should be supplied for use by the workers when paint is applied in the form of spray or a surface having lead paint is dry rubbed and scrapped.
 - c) Overalls shall be supplied by the contractors to the workmen and adequate facilities shall be provided to enable the working painters to wash during and on the cessation of work.
 - d) Measures shall be taken, wherever practicable, to prevent danger arising out of from dust caused by dry rubbing down and scraping.

- e) Adequatefacilitiesshallbeprovided to enableworking painters towash during and on cessation of work.
- f) Overallshallbewornbyworkingpaintersduringthewholeofworkingperiod.
- g) Suitablearrangementshallbemadetopreventclothingputoffduringworking hours being spoiled by painting materials.
- 9. When the work is done near any place where there is risk of drowning, all necessary equipments should be provided and kept ready for use and all necessary steps taken for prompt rescue of any person in danger and adequate provision, should be made for prompt first aid treatment of all injuries likely to be obtained during the course of the work.
- 10. Use of hoisting machines and tackle including their attachments, anchorage and supports shall conform to the following standards or conditions:-
 - i) (a) These shall be of good mechanical construction, sound materials and adequatestrengthandfreefrompatentdefectsandshallbekeptrepairedandin good working order.
 - (b) Every rope used in hoisting or lowering materials or as a means of suspension shall be of durable quality and adequate strength, and free from patent defects.
 - ii) Every crane driver or hoisting appliance operator, shall be properly qualified and no person under the age of 21 years should be in charge of any hoisting machine including any scaffolding winch or give signals to operator.

However, in such case, authorized Indian Agent shall have to upload scanned copy of tender specific Manufacturer's Authorization, signed and stamped by the manufacturer to quote against the CIL Tender, indicating the Tender Reference No. and date along with the offer. The authorized Indian Agent is to upload scanned copies of details in respect of its organization along with the copies of document like certificate of incorporation / registration etc. alongwith the offer. The firm (Indian Agent) should be in existence for 3 years on the date of tender opening, irrespective of date of appointment as Indian Agent.

In case an Indian Agent is participating in a tender on behalf of one manufacturer, it is not allowed to participate / quote on behalf of another manufacturer in this tender or in a parallel tender for the same item. Further, in a tender, either manufacturer can quote or its authorized Indian Agent can quote but both are not allowed to participate/ quote in the same tender. Also, one manufacturer can authorise only one agent to quote in the same tender. All the bids, not quoted as per the above guidelines, will be rejected.

- 2. The Foreign manufacturer must indicate the name & address of its agent in India. It should also indicate the commission payable to them and the specific services rendered by them. The Indian Agency commission will be payable only on FOB prices of goods and it should be quoted as a percentage of the FOB price. In case, the foreign manufacturer does not have any Indian Agent, it should be clearly mentioned in the bid. In terms of Integrity Pact, the Bidder has also to disclose all payments to agents, brokers or any other intermediaries. The amount of agency commission payable to Indian Agent should not exceed 5% or what is specified in agency agreement, whichever is lower.
- 3. In addition to above A certificate that no commission is payable by the principal supplier to any agent, broker or any other intermediary against this contract other than percentage

as indicated in BOQ (not exciding 5% of FOB) of FOB value of the contract to Indian Agent. This certificate forms a part of letter of credit.

4. The payment of Indian Agency Commission, if any, involved, may be considered in case of necessity, subject to compliance of the Government of India guidelines issued from time to time. The name of the Indian Agent with their full address and the quantum of Agency commission if any, payable shall have to be mentioned in the offer by the foreign manufacturer.

The following documents shall be submitted by the Bidder in case of contract with foreign principals involving Indian agents:

- a. Foreign principal's pro-forma invoice or any other authentic document indicating the commission payable to the Indian agent, nature of after sales service to be rendered by the Indian Agent and the precise relationship between the Principal and the Agent and their mutual interest
- b. Copy of the agency agreement if any with the foreign principal stating the precise relationship between them and their mutual interest in the business.
- However, if all the details given in Para (i) are complied with, the requirement of submission of document mentioned at Para (ii) may be waived.
- 5. Agencycommission, if any, shall be paid in equivalent Indian Rupees.
